# Outlook Express Setup Instructions

If the screenshots differ a bit from what you see, that's fine, these instructions still apply to your setup.
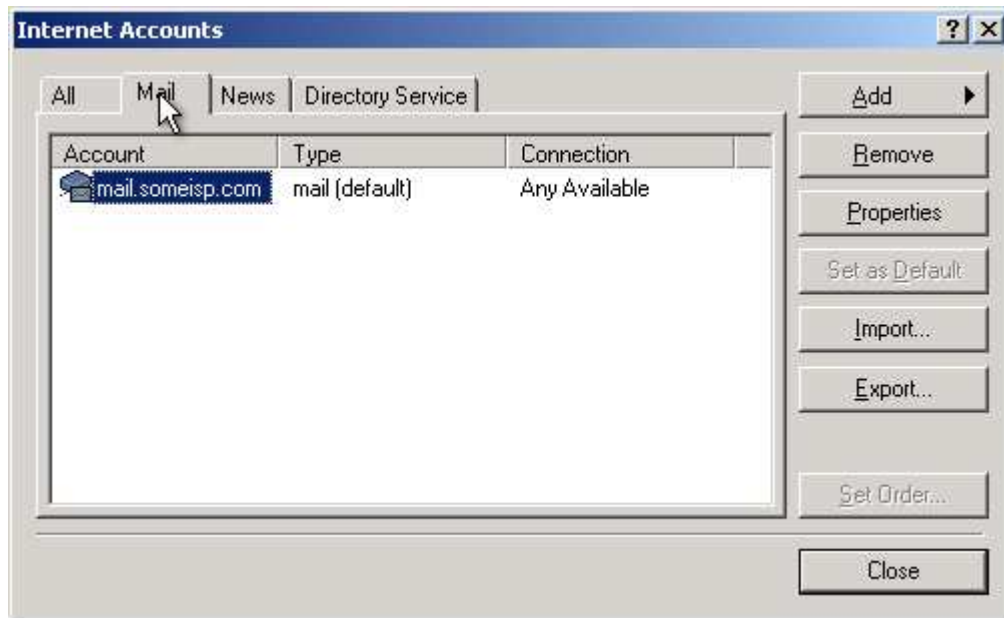

1. Find one of the following icons and click on it.

2. If a window asks you to enter your Display Name, skip to step 8; otherwise continue on.

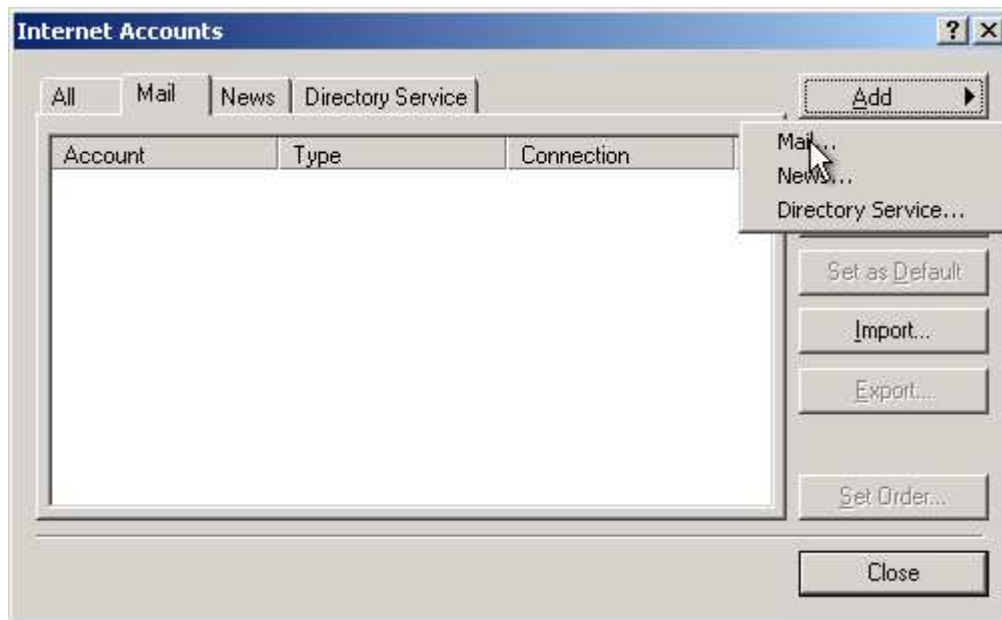

3. Click on 'Tools', then 'Accounts...'.

4. Click on the Mail tab.

5. If there are any email accounts that have already been configured, you will most likely want to delete them. Otherwise, skip to step 7.

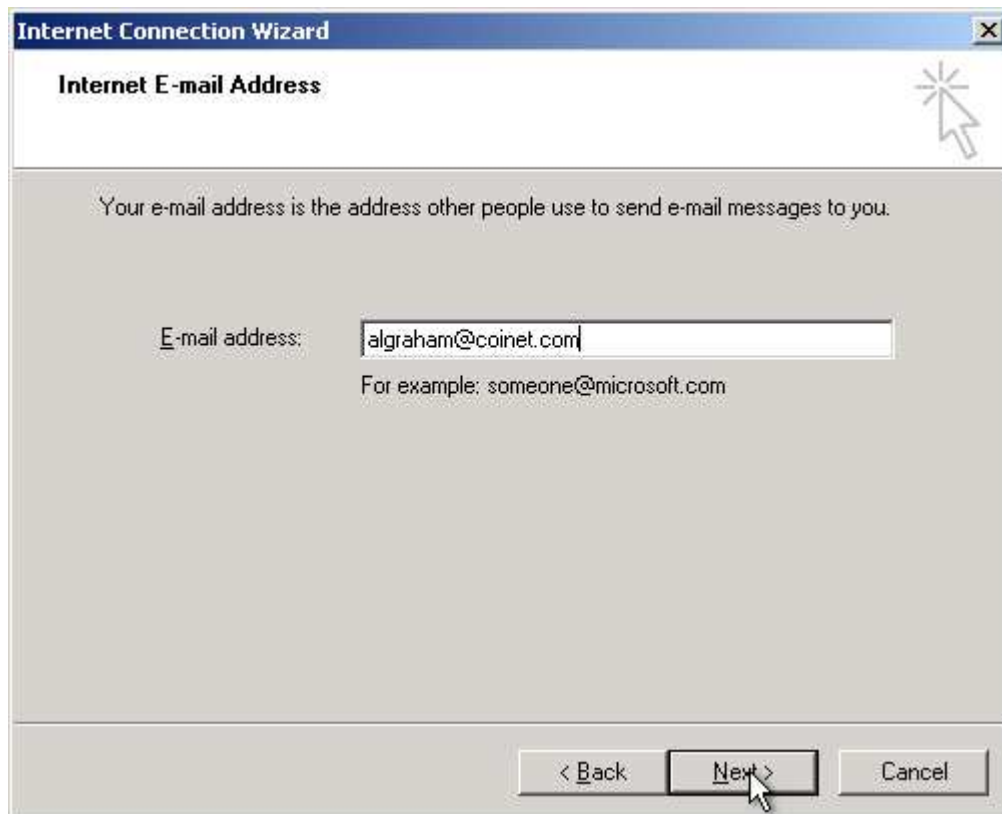

6. Select the email account you want to remove, then click Remove. Answer Yes to the confirmation. Repeat this step if you want to delete more than one email address.
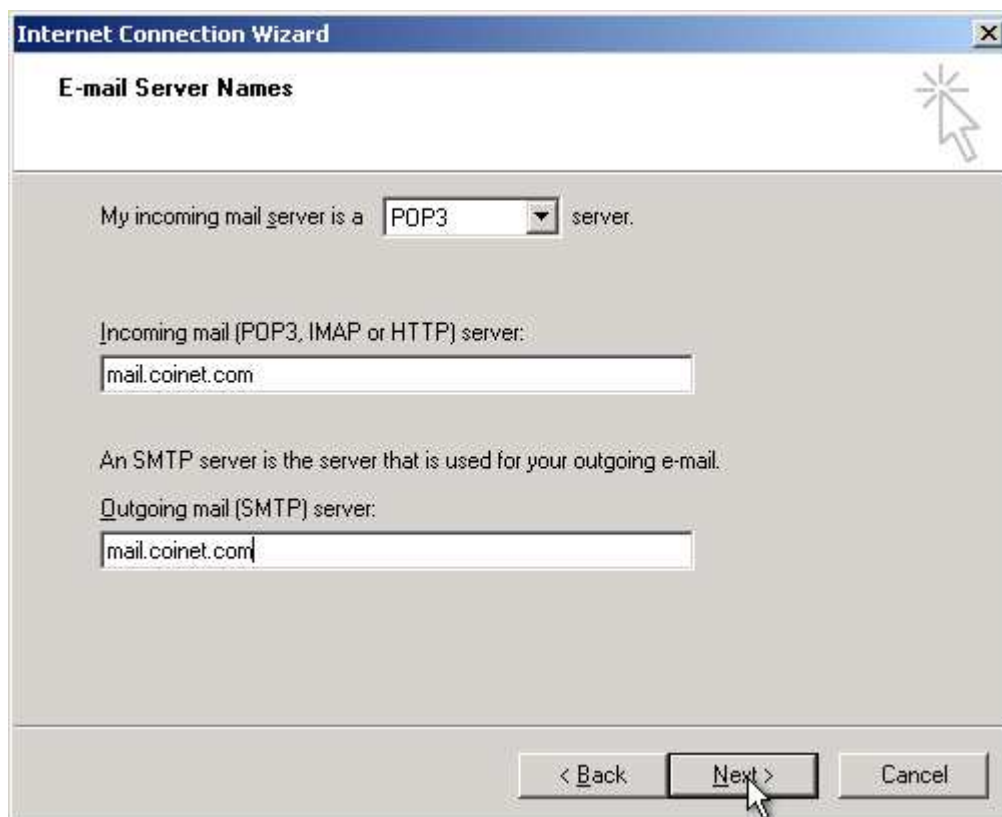

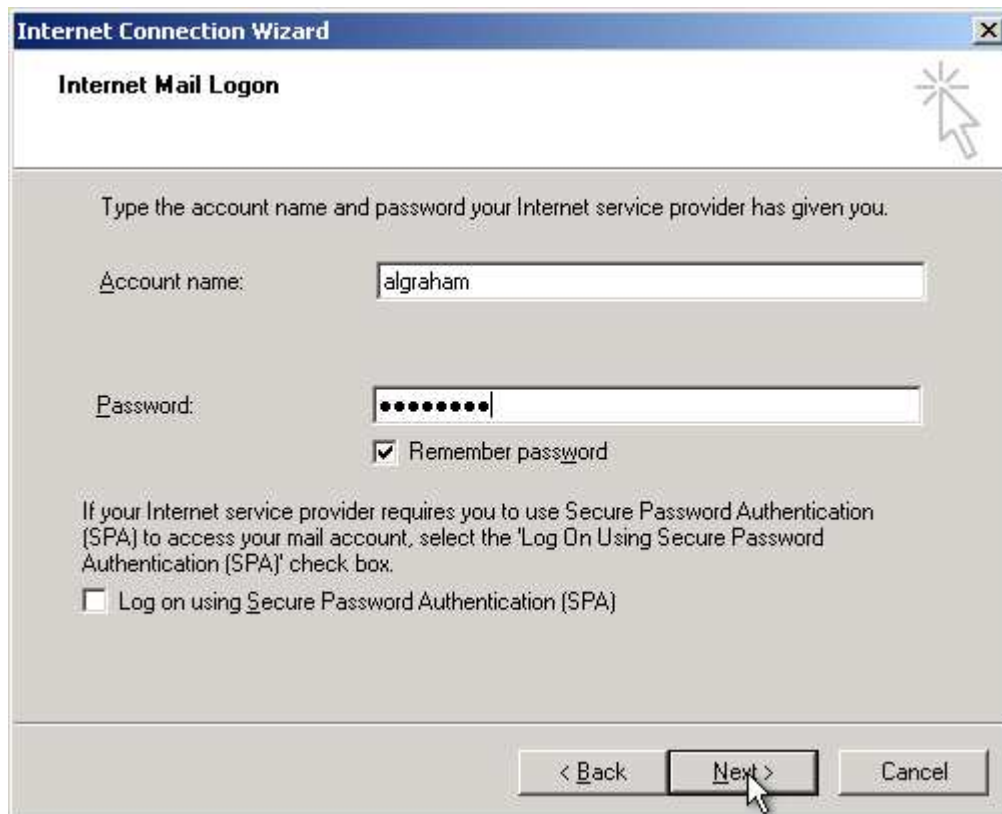

7. Click 'Add', then click 'Mail'.

8. Type in your real name in the 'Display Name' field. Click 'Next'.

9. Type in your email address. Click 'Next'.

10. Type 'mail.coinet.com' in the 'Incoming' and 'Outgoing Mail Server' fields. Click 'Next'.

11. Your username should already be in the 'Account Name' field; type your
    password into the 'Password' field. Click 'Next'.

12. Click 'Finish'.
